

Gabriel John L. Perez

Technical Escalations Specialist turned Full Stack Developer with a strong background in troubleshooting complex problems and providing effective solutions. Seeking to advance my career into a software engineering role where I can leverage the skills and knowledge acquired as a Specialist and a Full Stack Developer to create innovative software solutions.

Work Experience

Technical Escalations Specialist, Storehub Philippines Inc.

August 2021 - Present

- Attends and solves Tier 2 Hardware/Software Escalation tickets for a cloud-based POS solutions platform.
- Developed and implemented at least 2 training sessions a month for Tier 1 Customer Support Agents to upskill and help first contact resolution time and raise the departmental CSAT to above 90%.
- Led root cause analysis for critical incidents, identifying systemic issues and implementing preventative solutions at the same time acting as a liaison between the Customer Experience Department and Product and Engineering Team by investigating and reproducing bugs reported.
- Supports QA Testers for hardware/software testing.

Content Moderation Analyst, Open Access BPO

July 2020 - Jan 2021
